Announcing a new and cool opportunity for AABC Families

Wilder AABC received 26 Apple Computers as a donation, which we will distribute to our families throughout the year. ConvergeOne, Inc. deserves our sincere appreciation. Their recognition of family needs led them to participate in our online Family Spirit Home Visiting Program with this donation.

Moving Beyond Crisis Train the Trainer starts Jan. 2026

The Moving Beyond Crisis class is a training program that provides trainers with tools and resources to bridge and connect cultural elements of trauma-informed care to families from marginalized communities and with complex identities. The in-person training sessions will provide many opportunities for participants to engage with the trainer, fellow participants, and training materials to support diverse learning styles. This is a total of 13 hours in six sessions. Participants will receive a certificate if all six sessions are completed.

Safer Birth Consortium January 14 from 12 -2 pm

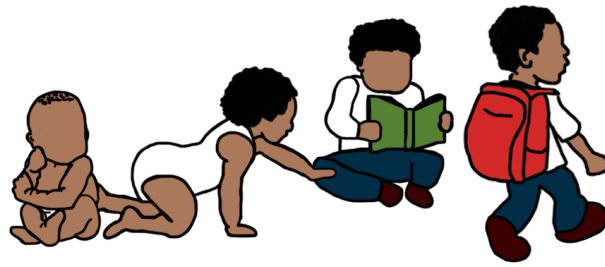

The AABC Safer Birthing Consortium aims to foster collaboration and alignment among state and county agencies, community-based organizations, and health care providers throughout Black and Brown birthing people's childbirth journeys. We are committed to advancing equity, improving health care systems, and elevating birthing people's right to be heard. If you are a professional or part of an organization focused on maternal health outcomes for BIPOC birthing people and are interested in joining the Safer Birthing Consortium, please email Donyella Smith at donyella.smith@wilder.org

RESOURCES TRAININGS AND EVENTS

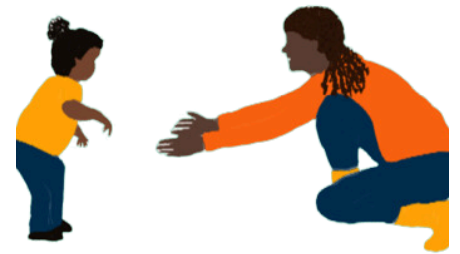

WINTER 2026

Wilder African American Babies Coalition & Projects

Supporting Incarcerated Mothers training TBD

This toolkit was designed to raise awareness to the unique needs of this population in our communities. The adjacent training for was created to train Friends, Family and Neighbors to gain skills that promote the low cost, high impact strategies needed to support a successful reentry and reunification experience for families and communities as a whole.

Birthing Fruition Starts in April 2026

This free learning experience will help participants develop skills in perinatal care and education to support Black and Brown communities. Topics covered include Community Outreach Perinatal Educator (COPE) Training, ACE awareness, culturally responsive home visiting and breast feeding and lactation. Healthcare professionals, home visitors, advocates and parents are encouraged to register.

Black Maternal Health Week in April 2026

This year we aim to honor and celebrate Black Maternal Health Week from April 13 - 17th, 2026. Look for more information on the details of the celebrations taking place that week in the upcoming spring quarter newsletter, on AABC website, Facebook page and other Wilder Announcement boards.

Minnesota Paid Leave makes time for the moments that matter

Minnesotans take care of one another. Starting in January 2026, Paid Leave will ensure Minnesotans can take the time they need to be there for some of life's most important moments—like welcoming a child, recovering from a serious illness, or caring for a loved one.

Paid Leave coverage

Paid Leave will provide payments and job protection for:

Medical Leave

1-12 weeks

Someone's own
serious health
condition

Family Leave

1-12 weeks

Bonding with
a new child

Caring for
a loved one

Managing
military leave

Certain personal
safety issues

Maximum of 20 weeks combined in one year if someone qualifies for both medical and family leave.

Almost all employers and individuals that work in Minnesota will be covered by Paid Leave.

Paid Leave payments

Benefit payments will cover a portion of an individual's usual pay during a qualified leave. Eligibility for payments will be based on earnings in the previous year.

Paid Leave job protection

Paid Leave will ensure that employees are able to return to their job after taking leave. If someone has worked at their job for at least 90 days, their job will be protected when they return from leave.

Paid Leave funding

Paid Leave is a social insurance program. Both employers and employees will contribute premiums to the fund.
